

Light, airy sunrooms, and Italian ceramic tile are just a few of the many features you can find in a custom-crafted Degnan home.

Designed for your life.

Picture yourself in the perfect home. From the floor plan to the woodwork, each and every detail fits you to a T. You've discovered the joy of owning a home built by Degnan Design Builders.

Unlike some builders who churn out scores of generic homes, Degnan Design Builders will custom-craft your home to fit your unique dreams — and budget. Degnan works closely with you and listens to you every step of the way, from initial design concepts to the last coat of paint. This customer-focused, hands-on approach is the way the Degnan family has been building everything from grand homes to not-so-big houses and additions for decades.

A Degnan home is not only beautiful, it's functional and efficient, too. In fact, every Degnan project is built to Energy Star and Green Built standards.

Exterior walls incorporate the Intelligent Wall system to increase your home's comfort, safety, durability and efficiency. And when you view the vistas surrounding your home through exquisitely designed Anderson® windows, you will smile knowing that their energy efficiency will be easy on your pocketbook.

Intelligent, elegant design to fit your life. Enjoy life to the fullest in a new home custom-crafted to fit you by Degnan Design Builders.
